### Verse:

My doctor says that I will be okay  
My shrink thinks that I need to get away  
My friends say that they haven't got a clue  
But my heart tells me my condition's caused by you!

That glow that's in my eyes  
Should come as no surprise,  
It lights the sky each time you come in view!  
That spring that's in my walk  
My grin each time we talk  
It happens ev'ry time WHEN I'M WITH YOU!

That unexpected bliss  
Is heaven when we kiss,  
And suddenly electric sparks ensue.  
And then they quickly climb  
I feel I'm in my prime  
It happens ev'ry time WHEN I'M WITH YOU!

### Bridge:

It's not a phenomenon that ev'ryone can see  
But you would have to be blind  
Or totally out of your mind  
To miss this magical spell you cast on me!

That breathless way I feel  
That blush I can't conceal  
This feeling is so wonderful and new  
An unfamiliar jolt  
Hits like a lightning bolt  
It happens ev'rytime WHEN I'M WITH YOU!

### 2<sup>nd</sup> or Optional Ending:

The way the ballroom spins  
Before the band begins  
A whirling that is wonderful and new  
That sexy walk you own  
That makes me beg and moan!  
It happens ev'rytime WHEN I'M WITH YOU!  
Yes, it happens ev'rytime WHEN I'M WITH YOU!
